The image shows the front cover of the Dufu Technology Corp. Berhad Annual Report for the year 2015. The background is a gradient of blue. At the top left is the company logo, which consists of the letters 'dtc' in a stylized font with a red arrow pointing upwards through the 't'. Below the logo, the text 'DUFU TECHNOLOGY CORP. BERHAD' is written in a smaller, sans-serif font, followed by '(SEB102.A)'. The main title 'CREATING SUSTAINABILITY, GROWING WITH YOU' is centered in large, bold, white capital letters. Below the title is a circular diagram composed of several interconnected nodes, each containing a small image of a mechanical or electronic component like a gear, a screw, or a circuit board. These nodes are connected by a network of white lines forming a tree-like structure. At the bottom of the cover, the text 'ANNUAL REPORT 2015' is printed in a small, white, sans-serif font.

Born in 1970 in Geilenkirchen, Germany, Steilemann studied chemistry at RWTH Aachen University and at ETH Zurich. They must establish new value chains to recycle water barrels in China, and add blockchain technology to plastic waste to make it traceable and reusable. Through the sale of a further 6.9 percent of Covestro shares for EUR 1 billion, the direct interest held by Bayer AG has now been reduced to 24.6 percent. "Through the move, we have taken a major step toward our goal of achieving full separation from Covestro in the medium term," said Werner Baumann, Chairman of the Board of Management. For this challenge of the century, stakeholders must unite to fight waste in the Alliance to End Plastic Waste. The company assumes no liability whatsoever to update these forward-looking statements or to conform them to future events or developments. His area of responsibility includes central functions such as strategy, sustainability, human resources and communication. No single entity can become fully circular alone. In 2017, as Chief Commercial Officer (CCO), he assumed responsibility for all three segments of the company, including innovation, marketing and sales. He is also a member of the Bureau of the European Chemical Union (Cefic) and of the Executive Board of the ICCA, the World Association of Chemical Associations. Due to agreements being in place, Bayer will retain the economic exposure to the price of these shares until at least the same date. The buyers have agreed to be bound by a lock-up arrangement pursuant to which they will not sell the shares they have just purchased until at least December 11, 2017. In addition, Bayer and Covestro have signed a control termination agreement, as part of which Bayer has undertaken to not exercise certain voting rights at the Covestro Annual Stockholders' Meeting. Markus Steilemann has been CEO of Covestro since June 2018. He is also Vice President of the German Chemical Industry Association (VCI). These factors include those discussed in Bayer's public reports, which are available on the Bayer website at www.bayer.com. This ensures that Covestro will no longer need to be fully consolidated in Bayer's consolidated financial statements. In 1999, Steilemann started his professional career with the Bayer Group, Leverkusen, September 29, 2017 - Bayer has definitely ceded control of Covestro AG. Steilemann is active in numerous associations and organizations. In addition, Bayer Pension Trust continues to hold 8.9 percent. The remaining Covestro interest will be carried at the current market value, and, from October 1, 2017, will be accounted for using the equity method. He graduated from Aachen with a doctorate, where he also obtained a diploma in business administration. Bayer will revise its Group outlook for fiscal 2017 to reflect these changes and will publish it on October 26, 2017, as part of its third quarter reporting. Find more information at www.bayer.com. Forward-Looking Statements This news release may contain forward-looking statements based on current assumptions and forecasts made by Bayer management. The strategic focus of his work is the comprehensive orientation of the company towards a fully circular economy. Back in Germany, in 2015, Steilemann became a member of the board of Covestro with responsibility for innovation. Covestro will be reported as a discontinued operation in Bayer's financial reporting for the third quarter of 2017. And this is only the start. He holds the presidency of PlasticsEurope, the Association of Plastics Manufacturers in Europe. In the following year, he was appointed head of the Polyurethanes division. From 2008, he held senior management positions in the polycarbonates division of Bayer MaterialScience, the predecessor organization of Covestro. From 2013 to 2015, he headed the entire segment with headquarters in China, where he lived for several years. For continuing operations, Bayer's key data, such as sales, EBITDA before special items, EBIT and core earnings per share, will be adjusted retrospectively to exclude Covestro's contributions. Additional Information This press release constitutes neither an offer to sell nor a solicitation to buy any securities of Bayer, Covestro or their respective subsidiaries. Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. The Covestro shares have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") and may not be offered or sold in the United States of America absent registration or an applicable exemption from the registration requirements under the Securities Act. In addition, all assets and liabilities allocated to Covestro will not feature in Bayer's statement of financial position as of September 30.

Royal Vopak N.V. (Dutch: Koninklijke Vopak) is a Dutch independent multinational company that stores and handles products ranging from chemicals, oil, gases and LNG to biofuels and vegoils.
